raktimkalita.ai@gmail.com | 9863507614 | [Linkedin](#) | [Github](#) | [Portfolio](#)

Technologies

Programming Languages: Python, SQL, R

Machine Learning : NumPy, Pandas, Scikit-learn, Matplotlib ,XGboost , Seaborn

Deep Learning: TensorFlow, Keras, Pytorch.

Computer Vision: Opencv, Image Segmentation, Object Detection, Pose Estimation.

Generative AI: Hugging Face, Transformers, Langchain, Prompt Engineering ,Ollama, Groq Cloud.

Libraries & Tools: NLTK, Git, ,Streamlit, Gradio, Arduino,Docker, Jupyter Notebook, Kaggle, CUDA, YOLO, Anaconda, Weights & Biases, Figma.

Projects

YouTube RAGbot - AI Video Analysis Tool

Feb 2025 – Apr 2025

[Git Repo](#)

Tools used: Python, Ollama, Groq Cloud, Streamlit, ChromaDB, YouTubeTranscriptApi.

- Developed an **AI-powered video analysis tool** that enables users to chat with an AI about YouTube video content.
- Implemented a **complete RAG pipeline** with transcript fetching, text chunking, embedding generation, and vector storage.
- Built a **responsive web UI** with Streamlit featuring embedded video playback, chat history, and customizable parameters.

Movie Recommendation System

Jun 2024 – Jul 2024

[Git Repo](#)

Tools used: Python, Numpy, Pandas, Scikit-Learn, NLTK , Gradio.

- Developed a recommendation system using **cosine similarity** to suggest movies based on user input.
- Utilized **Natural Language Processing (NLP)** and **machine learning** to analyze movie descriptions and genres.

ezyml

Jun 2025 – Jul 2025

[PyPI](#)

Tools used: Python , scikit-learn ,pandas, numpy ,Xgboost, PyPI.

- ezyml is a lightweight, high-level Python library and CLI tool that automates the most tedious parts of your ML pipeline . ezyml does the heavy lifting.
- Key Features are : Detects task type ,Smart Preprocessing ,20+ Models support,One-Line Export ,Dimensionality Reduction ,Dual Interface.

GraphLit Interactive Data Visualization Web App

March 2025 – May 2025

[Git Repo](#)

Tools used: Python, Streamlit, Pandas, Matplotlib, Seaborn, Streamlit Cloud .

- Built a web app using **Streamlit** to generate customizable visualizations from CSV, Excel, or pasted data.
- Supported dynamic chart types like **Pie**, **Bar**, and **Line** ,etc with theme and axis customization.

Education

NIMS UNIVERSITY, B. Tech. Artificial Intelligence and Machine Learning

July 2022 – PRESENT

Kendriya Vidyalaya No.2 Itanagar, High -school

April 2010 - June 2022

Certificates

Generative AI Professional.

September-2025

- Oracle

Supervised Machine Learning: Regression and Classification.

August-2024

- DeepLearning.AI, Coursera, Stanford CPD, UVM

Advanced Learning Algorithms.

November-2024

- DeepLearning.AI, Coursera, Stanford CPD, UVM

ITTCP , 2024 Second Place

July-2024

- Siemens Healthineers
